Talybont e-Bikes

**GREAT TRIAL OFFER
TRY AN ELECTRIC BIKE FOR THE DAY
AND USE YOUR CAR LESS**

We will have two electric bikes for people to use between
20th September and 3rd October 2009. The bikes are
being loaned to us by Talybont on Usk Energy (a commu-
nity enterprise with its own hydro power station). The bikes
may be booked for a day at a time to enable people to try
substituting their car for short commutes to work or visits
to the shops. Bike batteries have a maximum range of 25
miles before they need recharging (charger provided). Cost
£5 per day towards insurance. First come, first served!!!
Riding an electric bike is a great experience. It is easy, light
and quick. For reservations ring 01600 715962.

Green Travel Day is supported by Monmouthshire County Council
and Monmouth Town Council
